Quite a number of witnesses were examined, who were unanimous in saying the road is badly in need of extensive repairs, which, owing to the peculiar character of the road, would be very expensive, and that the road is a necessity to many other towns than this. Some thought that as high as \$2,500 to \$3,000 should be expended on a mile and a half, including a bridge with two spans. People here expect a favorable report.

The cottage builders are in their glory. E. F. Benton's neat and stylish cottage, designed and built by Charles L. Bonaf, and just painted by A. B. Taber, is one of the best. It is pleasantly located in a cedar grove, close to the lake, on a part

Dr. Dickinson took possession of the F. M. Strong cottage, on the lake shore, Saturday. It is one of the most desirable points on the lake. It is south of Fort Cassin, has a splendid view of mountain and lake, and although we have been there in the warmest weather, we never saw a mosquito there. That fact, if it remains so, is worth a month's rent.

At the annual communication of Dorchester Lodge, No. 1, F. & A. M., Monday evening, May 17, the following officers were elected and installed: O. A. Smith, W. M.; L. Grandey, S. W.; E. A. Field, J. The remarkably early season has sadly interfered with the ordinary calculations of the farming community. Stacks of hay dot the meadows of western Vermont, from Canada to the Massachusetts line. This hay was held in reserve for spring feeding. The feed is so far advanced that the hay is not wanted. An experienced farmer says that not less than one million tons of hay is now in stacks and barns, and consequently the price of hay is down to eight and ten dollars per ton, instead of \$10 to \$13. No foresight could provide for this emergency.

After Friday, June 11th, the graded school bell will have a good long rest. Principal, teachers and scholars will pack away the books, and life will put on many new and attractive features, during the long weeks of rest and enjoyment. The closing exercises of the term will include the graduating of six from the high school. The occasion is always a pleasant one to the friends of the scholars, and to the public generally, who always have a warm place in their hearts for the school. We are told that the male quartette, so much admired, will be present and take part.

Tugs, barges, canal boats, etc., appear so frequently, of late, in the basin below the falls, that it calls to mind the suggestion, once made by our then M. C., Hon. F. E. Woodbridge, that our little city be made a port of entry. But the only collector Vergennes can boast of is the tax collector. The tug boat George A. Harris towed up from the lake the barge Jumbo, of Brockville, and the barge Eva, of Montreal, both loaded with curtain roll stock, from Ottawa, Canada, for the Shade Roller Co. In addition we are receiving boat-loads of coal, iron, merchandise, etc., and boats are so constantly coming and going that it makes the river appear business-like and lively.

The number of victims of last week Tuesday's hurricane at Kansas City, Mo., is now known to be 26. Sixteen of these met death in the wreck of the Lathrop school-house. It appears that repairs were made upon this building after it had been condemned a second time, and it was considered safe by the board of education. The total damage to property in the city is roughly estimated at \$150,000, part of which is covered by storm insurances. The loss is chiefly in small amounts. Other places in Missouri also sustained great damage.

Of the Polish and Bohemian rioters who regaled themselves with liquid refreshments when they sacked the drug store at Chicago during the recent outbreak, eight have died and at least four more are known to be beyond hopes of recovery. Dr. Frederick N. Palmer, a Boston physician of high standing, jumped overboard with his little grandson from the Boston and Portland steamer John Brooks while out at sea, one night last week. Nothing can account for the tragedy but temporary insanity. The doctor left his West Chester Park home at Boston about 3 o'clock Monday afternoon taking along his four-year-old grandson, Wendell R. Smith, for a walk. The grandfather seemed in the best of health and spirits and dearly loved the little boy. The family had been told that they were simply going to take a usual afternoon stroll; but it seems that they wandered down to the wharves, where a passage was engaged on the steamer leaving that afternoon for Portland. Dr. Palmer was once postmaster at Brattleboro.

Twenty-five bodies of victims have been recovered there and 11 people are still missing. At all these places the rain was of the heaviest volume ever known. The outside world knew little of the havoc that had been done till Friday, as the telegraph wires were all thrown down.
